

Alfred Ayala

Aldrich 227

Division of Surgical Research/Shock-Trauma Research Laboratories

Rhode Island Hospital / Brown University School of Medicine

593 Eddy Street, Providence, RI 02903

Tel: (401) 444-5158; Fax: (401) 444-3278; E-mail: AAAYALA@lifespan.org

Web page: <http://research.brown.edu/research/profile.php?id=1100923653&r=1>

EDUCATION

B.S.	Bowling Green State University (Applied Microbiology)	1976
M.S.	Cleveland State University (Biology)	1979
Ph.D.	Cleveland State University (Regulatory Biology)	1985

POSTGRADUATE TRAINING

1985-88	Postdoctoral Fellow (Minority Program), Dept. of Microbiology, Michigan State University, East Lansing, MI (Dr. F. Kierszenbaum)
1988-89	Research Associate, Dept. of Surgery, Michigan State University, East Lansing, MI (Dr. I.H. Chaudry)

POSTGRADUATE HONORS AND AWARDS

SHOCK Society – *Scientific Achievement Award (10th Annual)*, 2007

Joseph Susman Memorial Award (3rd Annual) presented for most significant paper presented for surgical infection at 14th Annual meeting of the Surgical Infection Society, 1994.

M.S.U.-Special Foreign Travel Fund Awards for attendance of 2nd and 3rd International Congresses on Immune Consequences of Trauma, Shock and Sepsis held in Munich, Germany in 1991 and 1994.

MILITARY SERVICE

None

PROFESSIONAL LICENSES AND BOARD CERTIFICATION

None

ACADEMIC APPOINTMENTS

- Graduate Teaching Assistant (Biology), Dept. of Biology, Cleveland State University, Cleveland, OH. 1976-78
- Research Assistant (Biochemistry), Veterans Administration Hospital, Cleveland, OH (Dr. O.P. Malhotra). 1978-80
- Graduate Teaching Assistant (Biology), Dept. of Biology, Cleveland State University, Cleveland, OH. 1980-85
- Postdoctoral Fellow (Minority Program), Dept. of Microbiology, Michigan State University, East Lansing, MI (Dr. F. Kierszenbaum). 1985-88
- Research Associate, Dept. of Surgery, Michigan State University, East Lansing, MI (Dr. I.H. Chaudry). 1988-89
- Assistant Professor, Dept. of Surgery; Adjunct Appointment, Dept. of Microbiology, Michigan State University, East Lansing, MI. 1989-1992
- Associate Professor, Dept. of Surgery; Dept. of Microbiology, Michigan State University, East Lansing, MI. 1993-1995
- Associate Professor, Dept. of Surgery, Brown University School of Medicine/Rhode Island Hospital, Providence, RI. 1996-2000
- Professor, Dept. of Surgery, Brown University School of Medicine/Rhode Island Hospital, Providence, RI. 2000-**present**
- Adjunct Professor, Dept. of Cell & Molecular Biol., University of Rhode Island, Kingston, RI. 2001-**present**

HOSPITAL APPOINTMENTS

- Principle Investigator/Professor, Div. Surgical Research/Dept. of Surgery, Brown University School of Medicine/Rhode Island Hospital, Providence, RI. 2000-**present**

OTHER APPOINTMENTS

Editorial Board (year-papers reviewed)

SHOCK: *Molecular, Cellular, Systemic Pathobiological Aspects and Therapeutic Approaches*; 1993-present. (2006-8, 2007-8, 2008-8, 2009-14)

Journal of Immunology: *Associate Editor*; 2003-2007. (2006-4; 2007-4, 2008-6, 2009-4)

International Journal of Clinical and Experimental Medicine (open access J.): 2007-present (2008-1)

Ad Hoc Reviewer (year-papers reviewed)

‘Ad hoc-Editor’ paper for consideration by Proc. Nat. Acad. Sci. USA (2008)

British Journal of Pharmacology (2008)

PLoS One (2008)

Physiological Genomics (2007)

Mini Reviews in Medicinal Chemistry (2007)

Molecular Medicine (2007, 2008-2)

Current Medicine Chemistry (2007)

Nature Reviews-Immunology (2006)

Nature Biotechnology (2005)

Study Section Appointments

**National Institute of Health – National Heart, Lung, and Blood Institute, division of extramural research activities- Special Emphasis Panel (NHLBI-SEP): P50 Clinical Center reviewed – October 30, 2009*

Shriners Hospitals Research Advisory Board- Ad hoc review panel member for grants on Burns, Trauma, and Critical Care: August 6-7, 2009.

**National Institutes of Health – National Institute of General Medical Sciences (NIGMS) Special Emphasis Panel (ZGM1 PPBC-5 TB): P50 Clinical Center reviewed March 30, 2009.*

Shriners Hospitals Research Advisory Board- Ad hoc review panel member for fellowship applications on Burns, Trauma, and Critical Care: October 8, 2008.

***National Institute of Health** – Center for Scientific Review (NCSR) Special Emphasis Panel (ZRG1 SBIB-E [02] M): R01-R21s reviewed for Surgery, Anesthesia and Trauma-Member Conflicts- October 7, 2008

Shriners Hospitals Research Advisory Board- Ad hoc review panel member for grants on Burns, Trauma, and Critical Care: August 7-8, 2008.

External reviewer for the **Canada Research Chairs Program** (renewal Tier II Candidate), Ottawa, Ontario, Canada, July 25, 2008.

***National Institute of Health** – Center for Scientific Review (NCSR) Special Emphasis Panel (ZRG1-SBIB-N02 M): R01-R21s reviewed for Surgery, Anesthesia and Trauma-Member Conflicts- October 2, 2007.

Grant Application reviewed for the **Wellcome Trust Foundation**, April 7, 2006

Studentship application external reviewer for the **National Heart & Lung Institute-London College**, London, United Kingdom, April 1, 2006.

National Institute of Health – General Medical Sciences (NIGMS), Special Emphasis Panel (ZGM1-PPBC-3-GL): Glue Grant on Inflammatory Response to Injury. March 27, 2006

Internal Grant Application reviewed for the Lifespan-Rhode Island Hospital/Brown University-COBRE CCDR application process.

Grant Application reviewed for the Brown University-Salomon Award application Process.

Grant Application reviewed for the **Sheffield Hospitals Charitable Trust**, Sheffield Teaching Hospitals, Sheffield, United Kingdom.

National Institutes of Health – Center for Scientific Review (NCSR) Special Emphasis Panel (ZRG1-IMM-A 40 P): P01-Supplemental Funding Request July 25, 2005.

External Advisory Board member for NIH-Program Project entitled: “Alcohol and Burn Injury: Neuroimmunoendocrine Interactions”, Program Director: Elizabeth J. Kovacs, Loyola Univ. Med. Ctr., Inst. Burn, Trauma and Shock, Maywood, IL, December 13, 2004

Grant Application reviewed for the **Wellcome Trust Foundation**, November 12th, 2004

National Institutes of Health - National Inst. of Gen. Med. Sci. (NIGMS) Surgery, Anesthesiology and Trauma Study Section (SAT): R01-review panel, July 1, 2003-June 30, 2007 (Standing member of review panel)*

Grant Application reviewed for the **Israel Science Foundation**, April 17th, 2003

National Institutes of Health - National Inst. of Gen. Med. Sci. (NIGMS) Surgery, Anesthesiology and Trauma Study Section (SAT): R01-review panel, February 19-20, 2003 (Ad hoc review panel member)

National Institutes of Health - National Inst. of Gen. Med. Sci. (NIGMS) Special Emphasis Panels (ZRG1-SSS-W[04] & ZRG1-SSS-W[03]): R01-reviews form SAT members-February 19, 2003.

National Institutes of Health - National Inst. of Allergy & Infectious Disease (NIAID) Special Emphasis Panel (SEP #ZAI1-GLM-1-M2): P01-reviews-teleconference on "The Biodefense & Emerging Infectious Diseases Research Opportunities.", December 13th, 2002.

National Institutes of Health - National Inst. of Allergy & (NIAID)
Special Emphasis Panel (SEP #ZAI1-GLM-I-M1): P01-review-teleconference on "Innate Immunity in Vertebrates and Insects", December 12th, 2002

National Institutes of Health - National Center for Research Resources (NCRR)
Special Emphasis Panel (R01): R01-review-teleconference on "Nitrosylation/ Apoptosis", July 27th, 2002

Combat Casualty Care Panel - CDMRP-Peer Reviewed Medical Research Program
for Department of Defense-AIBS, July 18-19, 2002

Grant Application reviewed for Department of Defense-USAMRMC, November 9, 2001
Grant Application reviewed for Austrian Science Fund (FWF), September 25, 2001

National Institutes of Health - National Center for Research Resources (NCRR)
Reverse Site Visit Team: Review of University of Washington Program Project Grant Application: P01GM58270-01, entitled: Cell Death Pathways and Consequences. Washington, DC, March 26-27, 1998

Veterans Administration/Defense Department Grant Application Review,
Washington, D.C., January 22-23, 1998

National Institutes of Health - National Center for Research Resources (NCRR)
Reverse Site Visit Team: Review of University of Florida General Clinical Research Center Application: RR00082-36A1. Rockville, MD, July 31, 1997

National Institutes of Health - Study Section for RFA DK96-007: "Hemolytic Uremic Syndrome: Pathophysiology and Treatment". Baltimore, MD, June 1996
Grant application reviewed for Medical Research Council of Canada. May 1996.

HOSPITAL COMMITTEES

at Rhode Island Hospital/Brown University:

Department of Surgery/Brown University - Promotions & Appointments Committee member, 2000-present

Department of Surgery/Brown University - Selection Committee member for the Armand D. Versaci Research Scholar Award/Fellowship, 2000-present

Division of Surgical Research/Rhode Island Hospital - Executive Committee member, 2000-present

Chairman of Search committee for Inflammation Res. Scientist at Assist.-Assoc. level, Division of Surgical Research, Department of Surgery, Rhode Island Hospital/ Brown University School of Medicine. August, 2007-present

UNIVERSITY COMMITTEES

at Brown University:

Brown University School of Medicine: Subcommittee member on Academic Infrastructure for Teaching and Research, 2000-2001.

Curriculum Committee member, Pathobiology Graduate Program, Division of Biology and Medicine, Brown University, 2000-2003.

Department of Surgery/Brown University - Promotions Committee member, 2004-present

Retreat Co-Chairman & Committee member, *Pathobiology Graduate Program*, Division of Biology and Medicine, Brown University, 2005.

Retreat Chairman & Committee member, *Pathobiology Graduate Program*, Division of Biology and Medicine, Brown University, 2006.

Department of Surgery/Brown University - Promotions Committee member, 2004-present

Steering Committee Member-NIH/Brown Short Term Training Grant for Minority Students, June, 2006-present.

Admissions Committee Chairman & Committee member, *Pathobiology Graduate Program*, Division of Biology and Medicine, Brown University, 2007-2008.

Spring Graduate Pathobiology Program-Seminar Series organizing Committee, Chairman & Committee member, *Pathobiology Graduate Program*, Division of Biology and Medicine, Brown University, 2009-present.

at Michigan State University:

Advisory Committee, Department of Surgery, Michigan State University, 1993-95

Masters Degree Committee, Department of Surgery, Michigan State University, 1993-95.

Research Committee, Department of Surgery, Michigan State University, 1990-95

Water System, Building Representative, Michigan State University, 1990-95

MEMBERSHIP IN SOCIETIES

American Society of Investigative Pathology

American Association for the Advancement of Science

American Association of Immunologists

International Cytokine Society

Michigan Society for Medical Research

Society of Protozoologists

Shock Society

- Laboratory Animal Issue Committee-*Shock Society*, member 1995-1996, Chairman

1995.

- Program Committee member-for joint meeting of the Fourth International Shock Congress and 22nd Annual *Shock Society* Meeting in Philadelphia, PA, June 12- 16th, 1999.
- Program Committee member - 23rd Annual *Shock Society* Meeting in Snowbird, UT, June 3-6th, 2000.
- **Scientific Program Committee Chairman (elected)** - 24th Annual *Shock Society* Meeting in Marco Island, FL, June 10-13th, 2001.
- *Shock Society*-Development Committee, 2001-2005
- *Shock Society*-Finance Committee- 2002-2005, 2006
- *Shock Society*-Nominations Committee- 2006-2009 (Chairman: 2006)
- *Shock Society*-Internet Committee- 2006-2008
- *Shock Society*-International Relations Committee- 2006-2009
- *Shock Society*-Mentor Committee - 2007-2008
- *Shock Society*-Rules Committee- 2009- present (chair 09-10')
- **Shock Society Treasurer (elected)** - June 2002-2004.
- **Shock Society President-elect** - June 2003-2004
- **Shock Society President** - June 2004-2005
- **Shock Society Council Member as Past-President** - June 2005-2008

Surgical Infection Society

- **Recorder/Program Chairman-executive council member**, June 2005-2007
- *Surgical Infection Society*, dissemination of literature, National Association for Biomedical Research (NABR), 1991-1995.
- Local Program Arrangements Chairman for 20th Annual Meeting of the *Surgical Infection Society* in Providence, RI, April 26-29th, 2000.
- *Surgical Infection Society*, appointed to Program Committee, 2002-2005; chairman, 2005-2007.
- *Surgical Infection Society*, appointed to By-Laws Committee, 2007-present.

Society of Critical Care Medicine

Society of Leukocyte Biology

- Local Program Arrangements Committee Member - 34th Annual *Society of Leukocyte Biology* Meeting, Cambridge, MA, Oct. 5-8, 2000.

INVITED PRESENTATIONS

Symposia/Workshop Presentations

1. Speaker, mini-symposia entitled: "Trauma/ischemia induced alterations in cellular signaling." Talk entitled: 'Hemorrhage (HEM) induced alterations in macrophage signal transduction.', 3rd International Congress on the Immune Consequences of Trauma, Shock and Sepsis: Mechanisms and Therapeutic Approaches. Munich, Germany, March 3, 1994.
2. Panelist, workshop entitled: "The Making of an Investigator." 17th Annual Conference on Shock. Big Sky, MT, June 5, 1994.
3. Speaker, symposium entitled: "Humoral and Cellular Immunity after Trauma and Sepsis", talk entitled: 'Expression and Presentation of Major Histocompatibility Complex in Leukocytes.' 18th Annual Conference on Shock. Grove Park, NC, June 14, 1995.
4. Speaker, symposium entitled: "Toxins and Mediators in Sepsis", talk entitled: 'Sepsis induced immune dysfunction'. Conference on 'Sepsis and Septic Complications', Toronto, Canada, October, 12-13, 1995.
5. Speaker, mini-symposia entitled: "Apoptosis: the role of programmed cell death in acute inflammatory response", talk entitled: 'Apoptosis in the immune system during sepsis: different findings in different cell types.', 4th International Congress on the Immune Consequences of Trauma, Shock and Sepsis: Mechanisms and Therapeutic Approaches. Munich, Germany, March 6, 1997.
6. Speaker, mini-symposia entitled: "TH1/TH2 type response in trauma and infection", talk entitled: 'The anti-inflammatory mediator response: the murine TH2 response following shock and sepsis.', 4th International Congress on the Immune Consequences of Trauma, Shock and Sepsis: Mechanisms and Therapeutic Approaches. Munich, Germany, March 7, 1997.

7. Speaker, symposium entitled: "Apoptosis (Heat Shock Protein)", talk entitled: 'Immune Cell Apoptosis in Trauma/Shock/Sepsis.' 20th Annual Conference on Shock. Indian Wells, CA, June 18, 1997.
8. Speaker, workshop entitled: "Changes in the Immune System in Trauma and Sepsis", talk entitled: 'The Th1/Th2 Immune Response Following Shock and Sepsis.' At the International Workshop on Surgery and Critical Care: Cellular and Molecular Mechanisms. Bonn, Germany, March 6, 1998.
9. Speaker, Panel 3: "Animal Models of Hemorrhagic Shock", presentation entitled: "Rates of Hemorrhage and Outcome in Animal Models", as part of: Conference on Resuscitation Fluid Design and Resuscitation Protocols for Combat Casualties by the *Institute of Medicine of the National Academy of Sciences*, Washington, D.C., September 17, 1998.
10. Speaker, Education & Scientific symposium entitled: "Hemorrhagic Shock: Clinical Experimental Updates." Presentation entitled: "Non-specific Immune Response to Hemorrhagic Shock." 28th Annual Society of Critical Care Medicine Meeting. San Francisco, CA, January 27, 1999.
11. Speaker, Session 2: "Cellular Effectors of the Immune Response", presentation entitled: "Lymphocytes, Anergy, Apoptosis and Cell Activation." as a part of the Round Table Conference on, The Immune Response in the Critically Ill. Brussels, Belgium. March 13-15, 1999.
12. Speaker, mini-symposia entitled: "The Physiology and Cellular Biology of Acute Illness", presentation entitled: "Apoptosis". 5th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, February 29-March 5, 2000.
13. Speaker, mini-symposia entitled: "Apoptosis in Shock Inflammation and Sepsis: Cellular Mechanisms, Part I", presentation entitled: "Regulation of lymphoid apoptosis in sepsis and shock." 5th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, February 29-March 5, 2000.
14. Speaker, mini-symposia entitled: "TH1, TH2 Cell Response Under Stressful Conditions", presentation entitled: "The anti-inflammatory mediator response in polymicrobial sepsis." 5th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, February 29-March 5, 2000.
15. Speaker, mini-symposia entitled: "Apoptosis and Inflammatory Morbidities: A Link?", presentation entitled: "Apoptosis in polymicrobial sepsis.", 5th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, February 29-March 5, 2000.

16. Speaker, Nobel Symposia No. 124, entitled: "Septicemia and Shock: Pathogenesis and Novel Therapeutic Strategies", presentation entitled: "Fas-Ligand Mediated Apoptosis in Sepsis.", Stockholm, Sweden, May 15-17, 2003.
17. Speaker, mini-symposia entitled: "Apoptosis with Traumatic Stress and Sepsis", presentation entitled: "Extrinsic events in the apoptotic response to sepsis/shock." 6th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, March 2-6, 2004.
18. Speaker, mini-symposia entitled: "Dendritic Cells in the Innate Response to Infection", presentation entitled: "Divergent Effects of Sepsis on Dendritic Cell Function" 6th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, March 2-6, 2004.
19. Speaker, mini-symposia entitled: "Simple Models of Infection, Inflammation and Injury", presentation entitled: "Shock and hemorrhage" as a part of the conjoined Shock Society/International Sepsis Forum Symposium examining 'The Translational Biology of Acute Illness: Pre-Clinical Models of Shock, Trauma and Sepsis' at the Oak island Conv. Ctr., Western Shore, Nova Scotia, Canada, June 2-4, 2004.
20. Presidential Keynote Address: "Adequate Resuscitation?". 27th Annual Conference on Shock, Shock Society, Halifax, Canada, June 5-8, 2004.
21. Speaker in Symposium VII: 'Pathogenesis of Sepsis and Shock', presentation entitled: "Leukocyte Apoptosis and Its' Significance During Sepsis". Society for Leukocyte Biology 37th Annual Meeting, Toronto, Canada, October 23, 2004.
22. Speaker in Symposium on: 'Basic and Clinical Concepts in Innate Immunity', presentation entitled: "The Role and Regulation of Apoptosis in Sepsis". 8th Biennial Meeting of the Endotoxin Society, Kyoto, Japan, November 15-18, 2004.
23. Speaker in Symposium: 'Apoptosis in Critical Illness', presentation entitled: "Fas Ligand and Pathways of Sepsis-induced Cell Death". 34th Critical Care Congress, Phoenix, AZ, January 16, 2005.
24. Speaker in Symposium (Session C74): 'Mechanisms of Organ Dysfunction During Severe Sepsis', presentation entitled: "'Apoptosis and Organ Failure During Sepsis'". American Thoracic Society 2005 (100th) annual meeting, San Diego, CA, May 24, 2005.
25. Speaker in workshop 4: 'Blood Transfusion and Immunologic Consequences', presentation entitled: "Immunological Consequences of Hemorrhage", 10th International Symposium on Blood Substitutes, Providence, RI, June 14, 2005.

26. Speaker in Symposium: 'New Innovations in Sepsis Research: The Future of Translational Research in Sepsis', presentation entitled: "Small inhibitory RNAs". 35th Critical Care Congress, San Francisco, CA, January 8, 2006.
27. Speaker in Symposium: 'Innate Immunity – Inflammation Biology in the SICU', presentation entitled: "Apoptosis". 35th Critical Care Congress, San Francisco, CA, January 10, 2006.
28. Speaker in Symposia II: Presentation entitled: 'The Problem is Immunesuppression/ Impaired Adaptive Immunity'. Presentation entitled: "Blockade of Apoptosis is a Rational Therapeutic Approach". Novartis (formerly Ciba) Foundation Symposia #280: Sepsis-New Insights, New Therapies. London, United Kingdom, February 14, 2006.
29. Keynote address entitled: "Gene Silencing using silencing RNAs in vivo". 12th meeting of the European Shock Society, Ulm, Germany, September 14-16, 2006.
30. Speaker in Symposium: 'What Cell is the "Motor" of the Immune Response to Sepsis', presentation entitled: "Polymorphonuclear Cells and Neutrophils". 36th Critical Care Congress, Orlando, FL, February 16-20, 2007.
31. Speaker, mini-symposia entitled: "T-Regulatory Cell Populations Under Stressful Conditions", presentation entitled: "Changes in murine regulatory T-cell subsets and markers". 7th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, March 13-17, 2007.
32. Speaker, mini-symposia entitled: "Manipulating Apoptosis for Therapeutic Gain – Translating Science into Therapy.", presentation entitled: "Novel Therapeutic approach III: siRNA." 7th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, March 13-17, 2007.
33. Speaker, mini-symposia entitled: "Mucosal Immunity in Critical Illness.", presentation entitled: "Humoral and cellular immune responses in critical illness." 7th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, March 13-17, 2007.
34. Speaker, CIMIT forum, presentation entitled: "The Role of Systemic Immune Cell Signaling in Whole Body Ischemia/Reperfusion (I/R) injury (Hemorrhagic Shock)." Boston, MA, October 16, 2007.
35. Speaker, symposium entitled: "Co-stimulatory Receptors in Sepsis", talk entitled: 'Innate/Adaptive Counterpoise.' 32nd Annual Conference on Shock. San Antonio, TX, June 8, 2009. Speaker in scientific session: 'Hemodynamic Optimization after Cardiac or Trauma Resuscitation', presentation entitled: "Common Physiology of Post Cardiac Arrest Syndrome: Traumatic Injury, Sepsis and Acute Lung Injury". In the Resuscitation

Science Symposium (ReSS) as a part of American Heart Association (AHA) Meeting in Orlando, FL, November 15, 2009.

36. Speaker, mini-symposia entitled: "Immune Dysfunction in Sepsis and Injured Animals/Patients: Update on the Immuno-Pathogenesis and -Pathophysiology" presentation entitled: "Something Innately Different about PD-1 in Sepsis", 8th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, March 9-13, 2010.
37. Speaker, mini-symposia entitled: "Immunomodulatory Therapy of Sepsis – The Next Great Advance" presentation entitled: "Modification of Co-Stimulatory Molecules in Sepsis", 8th International Congress on the Immune Consequences of Trauma, Shock and Sepsis, Munich, Germany, March 9-13, 2010.

Invited Presentation/Visiting Professor

National/International:

1. **Ayala, A.** 1997. Immune Dysfunction in Hemorrhagic Shock. Cornell University Medical Center, Department of Surgery, Research Seminar Series, New York Hospital, New York, NY, April 28th.
2. **Ayala, A.** 1999. Mediators of Lymphocyte Anergy and Apoptosis in Polymicrobial Sepsis. Harvard Medical School, Department of Surgery, Clinical and Research Conference on Nutrition and Metabolism, Brigham and Women's Hospital, Boston, MA, March 23rd.
3. **Ayala, A.** 1999. Lymphocyte Activation, Anergy and Apoptosis in Polymicrobial Sepsis. Cornell University Medical Center, Department of Surgery, Research Seminar Series, New York Hospital, New York, NY, September 8th.
4. **Ayala, A.** 2000. Immune Cell Anergy and Apoptosis in Sepsis. BASF Bioresearch Corporation, Worcester, MA, May 11th.
5. **Ayala, A.** 2000. Immune dysfunction in sepsis and shock: from anergy to apoptosis. IDUN Pharmaceuticals, La Jolla. CA, October 30th.
6. **Ayala, A.** 2001. Pathological aspects of the apoptotic response of immune cells to sepsis and shock. Washington University, Department of Surgery, St. Louis, MO, May 16th.
7. **Ayala, A.** 2001. Pathological aspects of the apoptotic response of immune cells to sepsis and shock. Northshore-Long Island Jewish Hospitals, Department of Surgery,

Manhasset, NY, June 26th.

8. **Ayala, A.** 2001. Pathological aspects of the immune response to sepsis and shock. University of Rhode Island, Department of Biochemistry, Molecular Biology and Microbiology, Kingston, RI, November 26th.
9. **Ayala, A.** 2002. Pathological aspects of apoptosis in severe sepsis and shock. University of Alabama at Birmingham, College of Medicine, Center for Surgical Research. Department of Surgery, Birmingham, AL, April 22nd.
10. **Ayala, A.** 2004. Shock Induced Priming for Acute Lung Injury: Discerning the Contribution of Apoptosis. - Visiting Lecturer-UMDNJ-Newark, Department of Surgery, Newark, NJ, September 16th.
11. **Ayala, A.** 2004. The Role and Regulation of Apoptosis in Sepsis - Surgical Grand Rounds-Visiting Lecturer-UMDNJ-Newark, Department of Surgery, Newark, NJ, September 17th.
12. **Ayala, A.** 2004. Divergent Mechanisms Contributing to Immune Dysfunction Associated with Sepsis - Visiting Lecturer-Loyol School of Medicine, Brun, Shock & Trauma Institute, Maywood, IL, December 8th.
13. **Ayala, A.** 2004. Shock Induced Priming for Acute Lung Injury in Mice: Discerning the Role of Apoptosis - Visiting Lecturer-LIJ-NorthShore Research Institute, Manhasset, NY, December 14th.
14. **Ayala, A.** 2005. Discerning the Contribution of Apoptosis to Shock Induced Priming for Acute Lung Injury – Research Presentation, Department of Pulmonary Medicine, LSU Medical Center, New Orleans, LA, February 22nd.
15. **Ayala, A.** 2005. Cell Deaths and its Significance during Sepsis and Shock. The Infection and Immunology Visiting Lecturer Series, Department of Microbiology, Immunology and Parasitology, LSU Medical Center, New Orleans, LA, February 22nd.
16. **Ayala, A.** 2006. Blockade of apoptosis as a rational therapeutic strategy for the treatment of sepsis and shock.. Children’s Memorial Hospital Research Institute/Northwestern University School of Medicine, Chicago, IL, May 22nd.
17. **Ayala, A.** 2006. Apoptotic Processes in the Development of Acute Lung Injury Pursuant to Shock. Universitat Ulm. Ulm, Germany, Septemeber 18th.
18. **Ayala, A.** 2007. Apoptosis and its’ Significance to Immune/Organ Dysfunction during Sepsis and Shock. Ludwig Boltzman Institute for Experimental and Clinical Traumatology/Austrian Cluster of Tissue Regeneration. Vienna, Austria, March 12th.

19. **Ayala, A.** 2009. Anti-Inflammatory Regulators of Extra-Pulmonary Acute Lung Injury: Minor Immune Cell Sub-Populations with Significant Effects. Feinstein Institute for Medical Research/ General Clinical Research Center at Manhasset, NY, September 15th.
20. **Ayala, A.** 2009. A Novel Role for the Inhibitory co-receptor, PD-1, in the Innate Immune Response to Sepsis. Department of Pathology seminar series, Boston University School of Medicine, Boston, MA, November 6th.

at Michigan State University:

1. **Ayala, A.** The effects of hemorrhage on macrophage mediated antigen presentation. Department of Surgery Research Seminar Series, St. Lawrence Hospital, Lansing, MI, December, 1988.
2. **Ayala, A.** Lymphokines in immune function. St. Mary's Hospital, Saginaw, MI, February, 1989.
3. **Ayala, A.** Hemorrhage induced changes in macrophage function. Department of Surgery Research Seminar Series, St. Lawrence Hospital, Lansing, MI, November 1989.
4. **Ayala, A.** 1990. Alterations in macrophage function during polymicrobial sepsis. Department of Surgery Research Seminar Series, Michigan State University-St. Lawrence Clinic, December 13.
5. **Ayala, A.** 1991. Cytokines and Immunity, and as Immuno Modulators. Michigan State University Cancer Treatment Consortium, Midland, MI, April 12.
6. **Ayala, A.** 1991. Enhanced Kupffer cell cytotoxic activity following hemorrhage: a potential cause of hepatocellular injury. Department of Surgery Research Seminar Series, Michigan State University-St. Lawrence Clinic, November 14.
7. **Ayala, A.** 1992. Overview of Shock and Trauma Research at Michigan State University. Michigan Association of Medical Transcriptionists, Frankenmuth, MI, September 19.
8. **Ayala, A.** 1993. Insights into the mechanism by which interferon-g improves macrophage function following hemorrhage. Department of Surgery Research Seminar Series, Michigan State University-St. Lawrence Clinic, February 11.
9. **Ayala, A.** 1993. IL-6: An Overview. Department of Hematology/Oncology, Michigan State University, March 12.

10. **Ayala, A.** 1994. Sepsis induced programmed cell death. Department of Surgery Research Seminar Series, Michigan State University-St. Lawrence Clinic, September 15.

at Brown University/Rhode Island Hospital:

1. **Ayala, A.** 1996. Immune dysfunction in murine polymicrobial sepsis: mediators, macrophages and lymphocytes. Division of Surgical Research-Rhode Island Hospital Seminar Series, March 12.
2. **Ayala, A.** 1996. Trauma induced suppression of antigen presentation. Presented as a part of Molecular Microbiology and Immunology Seminar Series. Brown University School of Medicine. September 26th.
3. **Ayala, A.** 1997. Apoptosis in the immune system during sepsis: different findings in different cell types. Rhode Island Hospital Research Journal Club. February 4th.
4. **Ayala, A.** 1998. Apoptosis. Basic Cell Biology Conference for Division of Renal Disease at Rhode Island Hospital, April 15.
5. **Ayala, A.** 2000. Immune Cell Anergy and Apoptosis in Sepsis. Pulmonary Research Conference. Brown University School of Medicine, May 24.
6. **Ayala, A.** 2000. Is there a pathologic role for apoptosis in septic liver injury? Liver Seminar Series - Liver Research Center at Rhode Island Hospital, December 7.
7. **Ayala, A.** 2003. Fas-Ligand Mediated Apoptosis in Sepsis. Liver Seminar Series - Liver Research Center at Rhode Island Hospital, June 5.
8. **Ayala, A.** 2004. Extrinsic Events in the Apoptotic Response to Sepsis. Invited Res. Lecture - part of Ninth Annual Henry Randall Distinguished Lectureship in Surgical Sciences, February 24.
9. **Ayala, A.** 2004. Shock Induced Priming for Acute Lung Injury in Mice: Discerning the Role of Apoptosis. Division of Surgical Research Seminar Series, December 21.
10. **Ayala, A.** 2005. Discerning the contribution of apoptotic signaling in shock induced priming for acute lung injury. Department of Molecular, Microbiology & Immunology Seminar Series-Brown University School of Medicine. September 22.
11. **Ayala, A.** 2005. Discerning the contribution of apoptotic signaling in shock induced priming for acute lung injury. Pulmonary Research Conference-Brown University School of Medicine. November 7.

GRANTS

Active Grant Support:

- 2003-2012 NIH-NIHLBI: "Regulatory Mechanisms of Acute Lung Injury: Phagocyte Apoptosis."
Grant No. 2 RO1 HL63898-06
Principal Investigator: Alfred Ayala
Total Support = \$1,542,875 in direct and indirect cost (for 2008-2012).
- 1991-2012 NIH-NIGMS Research Grant: "Differential Effects of Sepsis on Macrophage Function."
Grant No. 3 R01 GM46354-15
Principal Investigator: Alfred Ayala
Total Support = \$1,331,926 in direct and indirect cost (for 2008-2012).
- 1999-2010 NIH-NIGMS Research Grant: "Programmed Cell Death: Role in Septic Immune Suppression."
Grant No. 3 RO1 GM53209-14
Principal Investigator: Alfred Ayala
Total Support = \$1,106,943 in direct & indirect cost (for 2004-2008: *no cost ext*).
- 2009-2013 NIDDK NRSA: "Fatal Attraction: T lymphocytes and liver endothelial cells during sepsis"
Grant No. F31 DK083873
Principle Investigator: Noelle Hutchins
Sponsor: Alfred Ayala
Total Fellowship Support = \$163,500 in direct and indirect cost.
- 2004-2014 NIH-NIGMS: "Trauma-inflammation Research Training."
Grant No.: T32-GM08768
Program Director: Jorge E. Albina
Co-Director/Executive Committee/Faculty: Alfred Ayala
Total Support Requested = \$1,158,247 in direct and indirect cost.
- 2003-2010 NIH-Research Grant: "Neutrophil-Kupffer Cell Interaction during Infection."
Grant No.: R01-DK 61511
Principle Investigator: Stephen H. Gregory
Collaborator: Alfred Ayala
Total Support Requested = ~\$1,250,000 in direct and indirect cost.
- 2001-2010 NIH-NIHLBI: "Short-term Training for Minority Students."
Grant No.: T35-HL67704
Principal Investigator: Sharon I.S. Rounds

Faculty Trainer: Alfred Ayala
Total Support = \$229,900 in direct and indirect cost.

Submitted/Pending Grant Proposals:

- 2009-2013 NIH-NIGMS Research Grant: "Programmed Cell Death: Role in Septic Immune Suppression."
Grant No. 3 RO1 GM53209-15
Principal Investigator: Alfred Ayala
Total Support = \$1,534,575 in direct and indirect cost (for 2009-2013).
- 2007-2012 NIH-Research Grant: "Mechanisms of Immune Hyporesponsiveness in Shock: Role of SOCS-1 and SOCS-3 Proteins."
Grant No.: R01-AI64393
Principal Investigator: Chun-Shiang Chung
Collaborator: Alfred Ayala
Total support requested: \$1,000,000
- 2008-2012 NIH Research Grant: "Characterization of the Beta-Glucan Receptor."
Grant No. 2 RO1 GM51493-06
Principal Investigator: Jonathan S. Reichner
Collaborator: Alfred Ayala
Total Support = \$2,000,000 direct and indirect cost.
- 2010-2015 NIH-NHLBI: "Mediators of Endothelial Cell Dysfunction in the Development of Shock Induced ALI."
Grant No. RO1-HL???
Program Director: Joanne Lomas-Neira
Collaborator: Alfred Ayala
Total Support Requested = \$1,158,247 in direct and indirect cost.
- 2010-2013 Parker B. Francis 'early career' Fellowship: "Mediators of Endothelial Cell Dysfunction in the Development of Shock Induced ALI."
Grant No.: 'Early career' Fellowship
Program Director: Joanne Lomas-Neira
Mentor: Alfred Ayala
Total Support Requested = \$150,000 in direct and indirect cost.
- 2010-2013 American Lung Association: "Mediators of Endothelial Cell Dysfunction in the Development of Shock Induced ALI."
Grant No.: Independent Investigator Award
Program Director: Joanne Lomas-Neira
Collaborator: Alfred Ayala

Total Support Requested = \$120,000 in direct and indirect cost.

Past Grant Support:

- 1991-1992 NIH James A. Shannon Director's Award: "Differential Effects of Sepsis on Macrophage Function."
Grant No. R55 GM46354
Principal Investigator: Alfred Ayala
Total Support = \$100,000 in direct and indirect cost.
- 1991-1995 NIH Research Grant: "Maintenance of Organ Function Following Injury."
Grant No. 2 RO1 GM39519
Principal Investigator: Irshad H. Chaudry
Co-Investigator: Alfred Ayala
Total Support = \$879,595 in direct and indirect cost.
- 1991-1995 NIH Research Grant: "Immunological Aspects of Hemorrhage."
Grant No. 2 RO1 GM37127
Principal Investigator: Irshad H. Chaudry
Co-Investigator: Alfred Ayala
Total Support = \$948,162 in direct and indirect cost.
- 1992-1998 NIH First Award: "Differential Effects of Sepsis on Macrophage Function."
Grant No. R29 GM46354
Principal Investigator: Alfred Ayala
Total Support = \$506,063 in direct and indirect cost.
- 1995-1999 NIH Research Grant: "Programmed Cell Death: Role in Septic Immune Suppression."
Grant No. 1 RO1 GM53209
Principal Investigator: Alfred Ayala
Total Support = \$1,265,111 in direct and indirect cost.
- 1997-1998 NIH-NCRR Shared Inst. Grant: "Laser Scanning Confocal Imaging System."
Grant No. PA-96-017
Principal Investigator: Paul N. McMillian
Major User/Collaborator: Alfred Ayala
Total Support Requested = \$295,454.
- 1995-1999 NIH Research Grant: "Immunological Aspects of Hemorrhage."
Grant No. 3 RO1 GM37127
Principal Investigator: Irshad H. Chaudry
Co-Investigator: Alfred Ayala

Total Support = \$1,851,064 in direct and indirect cost.

- 1999-2000 NIH Research Grant: "Maintenance of Organ Function Following Injury."
Grant No. 4 RO1 GM39519
Principal Investigator: Irshad H. Chaudry
Collaborator: Alfred Ayala
Total Support = \$1,721,880 in direct and indirect cost.
- 1999-2000 NIH Research Grant: "Immunological Aspects of Hemorrhage."
Grant No. 4 RO1 GM37127
Principal Investigator: Irshad H. Chaudry
Collaborator: Alfred Ayala
Total Support = \$2,059,443 in direct and indirect cost.
- 1996-2000 NIH Research Grant: "Hypoxemia/reoxygenation and cytokine - PMN interactions."
Grant No. 1 RO1 GM53114
Principal Investigator: H. Hank Simms
Collaborator: Alfred Ayala
Total Support = \$1,851,064 in direct and indirect cost.
- 2000-2001 NIH-NCRR Shared Inst. Grant: "High Performance Flow Cytometry - Cell Sorting System."
Grant No. PAR-99-031
Principal Investigator: Paul N. McMillian
Major User/Collaborator: Alfred Ayala
Total Support Requested = \$456,254.
- 1999-2003 NIH Research Grant: "Differential Effects of Sepsis on Macrophage Function." Grant No. R01 GM46354
Principal Investigator: Alfred Ayala
Total Support = \$1,068,306 in direct and indirect cost.
- 2001-2003 Charles H. Hood Foundation-Childs Health Research Grants: "Viral Modulation of the Immune Response."
Grant No.
Principal Investigator: Lesley A. Doughty
Collaborator: Alfred Ayala
Total Support = \$100,000
- 2004-2005 NIH-NIGMS Mentored Clinician Scientist Award: "Viral Modulation of the Immune Response."
Grant No.: K08-GM71568
Principal Investigator: Lesley A. Doughty

Mentor: Alfred Ayala
Total Support = \$475,000

2004-2005 NIH-NCRR Shared Inst. Grant: "Digitized Transmission Electron Microscope."
Grant No. RR-03-002
Principal Investigator: Paul N. McMillian
Major User/Collaborator: Alfred Ayala
Total Support Requested = \$271,375.

2004-2005 Lifespan Development Award: "Mechanisms of Immune Hyporesponsiveness in Shock: Role of SOCS-1 and SOCS-3 Proteins."
Grant No.
Principal Investigator: Chun-Shiang Chung
Collaborator: Alfred Ayala
Total support requested: \$28,490

2005-2006 Rhode Island Foundation: "Mechanisms of Immune Hyporesponsiveness in Shock: Role of SOCS-1 and SOCS-3 Proteins."
Grant No. #20050235
Principal Investigator: Chun-Shiang Chung
Collaborator: Alfred Ayala

Total support requested: \$10,000

2004-2005 Elli Lilly & Co.: "The Role of Activated Protein C in the Compensatory Anti-inflammatory Response."
Grant No. Clinical Res.
Program Director: Nicholas Ward
Co-Investigator: Alfred Ayala
Total Support Requested = \$125,369 direct cost.

2003-2008 NIH-NIHLBI: "Regulatory Mechanisms of Acute Lung Injury: Phagocyte Apoptosis."
Grant No. GM/HL63898-01
Principal Investigator: Alfred Ayala
Total Support = \$1,413,967 in direct and indirect cost (for 2003-2008).

2003-2008 NIH Research Grant: "Characterization of the Beta-Glucan Receptor."
Grant No. 2 RO1 GM51493-06
Principal Investigator: Jonathan S. Reichner
Collaborator: Alfred Ayala
Total Support = \$1,813,750 direct and indirect cost (for 2003-2008).

Serving/Served as Unpaid Consultant/Collaborator on Grant Proposals:

- 1995-2000 NIH First Award: "Modulation of Hepatocellular Function in Early Sepsis."
Grant No. R29 GM53008
Principal Investigator: Ping Wang
- 1998-2006 NIH Research Grant: "Sepsis: Mediators of Cardiovascular Responses."
Grant No. R01 GM57468
Principal Investigator: Ping Wang
- 1998-2000 NIH Research Grant: "HGF Receptor Gene Regulation and Renal Growth."
Grant No. R01 DK54922
Principal Investigator: Youhua Liu
- 1998-2003 NIH Program Project: "Trauma Primes Cells - Project VII" by Alden H. Harken
Grant No. 2 P50 GM49222
Principal Investigator: Alden H. Harken
- 1999-2004 NIH Research Grant: "Thermal Injury Induced Alterations in Immune Cells."
Grant No. R01 GM58242
Principal Investigator: Martin G. Schwacha
- 2000-2001 Lifespan Research Grant: "Immunomodulation during Viral Infection -
In Children."
Lifespan/Dept. Pediatrics/Hasbro-R.I. Hospital Supported Project.
Principal Investigator: Lesley A. Doughty
- 2005-2010 NIH-NIGMS Mentored Clinician Scientist Award: "Immunomodulation of Sepsis
in Biliary Obstruction."
Grant No.: K08-GM74678
University of Michigan, Dept. Surgery
Principal Investigator: Rebecca Minter
- 2002-2006 NIH Research Grant: "A Mechanism of Liver Repair after Biliary
Reconstruction."
Grant No. R01 DK46831-06
Principal Investigator: Thomas F. Tracey, Jr.
Collaborator: Alfred Ayala
Total Support = \$1,564,869 direct and indirect cost (for 2002-2006).
- 2003-2006 NIH- Research Grant: "Francisella Tularensis: Innate Resistance to Inhalation."
Grant No.: R21-AI 55657-01
Principle Investigator: Stephen H. Gregory
Collaborator: Alfred Ayala

Total Support: \$616,000 in direct and indirect costs (for 2003-2006)

- 2006-2007 NIH-NCRR Shared Inst. Grant: "BD FACSAria Flow Cytometer."
Grant No. S10 RR021051-01A2
Principal Investigator: Laurent Brossay
Major User/Collaborator: Alfred Ayala
Total Support Requested = \$449,100.
- 2006-2007 NIH-NCRR Shared Inst. Grant: "Nikon C1si Confocal Microscope."
Grant No. S10 RR22512
Principal Investigator: Paul McMillian
Major User/Collaborator: Alfred Ayala
Total Support Requested = \$333,248.
- 2005-2007 Shock Society/Novo Nordisk Fellowship in Hemostasis and Shock: "Immune Hyporesponsiveness in Shock: Role of SOCS-1 and SOCS-3 Proteins."
Grant No.: Jr. Faculty Fellowship
Principal Investigator: Chun-Shiang Chung
Mentor: Alfred Ayala
Total Support = \$120,000

UNIVERSITY TEACHING ROLES

at Cleveland State University:

Microbiology (Bio 417):
Spring Qtr. 1984 (30% of lectures)

Graduate Laboratory Instructor for Micro. Labs. (Bio. 417,314); Intro-Majors Bio.
Labs. (Bio. 201,202); Development Bio. Labs.; Non-majors Intro-Bio. Lab. (Bio. 101)
1976-78 and 1980-1985.

at Michigan State University:

Graduate Immunology (MPH 851):
Fall 1993 (10% of lectures)
Spring 1995 (20% of lectures)

Preceptor Block II (year II med. students) - Problem Based Learning (HM 511, 512, 525, 526):
Fall 1993, 1994, 1995 (September)
Spring 1994 (January)

Undergraduate/Medical Student Independent Study (PHY 980; PSL 480; MPH 490)
see "Students Advised"

at Brown University/Rhode Island Hospital:

Preceptor for Surgical Residents Basic Science Conference (R.I.H):
Oct 1996, Aug 1997, Sept 1998, Dec 2000

Lecturer: Biology 285 "Introduction to Pathobiology Research"
Nov 1999, Sept. 2000, Oct. 2007

Advisor: Biology 195/196 "Independent Study"
Rebecca Rhee: Fall 2001
Sarah Bray: Fall 2002
Nickolas Winoski: Fall 2003/Fall 2004
Caroline Hu: Spring 2005, Fall 2005, Spring 2006
Yyvone L. Wang: Fall 2006, Spring 2007
Ana Moreno: Fall 2007, Spring 2008

Faculty: Biology 284 "Topics in Pathobiology: Immunopathology"
Jan.-May 2000 (responsible one-third of course content/lectures)
Jan.-May 2002 (responsible one-third of course content/lectures)

Medical Student Independent Study (Medicine 710)
see "Students Advised"

IMSD Module: "Reading Scientific Publications"
Oct-mid Nov 2008 (6 weekly 2 h meetings)

Honors *Primary Reader*: Honors thesis project for B.S. degree.

Rebecca J. Rhee, Honors thesis project entitled: The contribution of NK-T-cells to
Immune suppression seen in sepsis. May 2002

Sarah Bray (Newton), Honors thesis project entitled: Changes induced in macrophage
co-stimulatory molecule expression and/or function after polymicrobial sepsis:
CD86 expression and macrophage function. May 2003

Nickolas Winoski, Honors thesis project entitled: The Contribution of CD4+CD25+ T-
regulatory Cells to Immune Suppression in Sepsis. May 2005

Benjamin Galen, Honors thesis project entitled: Scavenger Receptor Expression During
Systemic Inflammation. May 2005

Caroline Hu, Honors thesis project entitled: Role of liver NK-T-cells in the development of immune/hepatic dysfunction and injury in septic mice. May 2006.

Ana Moreno, Honors thesis project entitled: Determination of the effect of intra-peritoneal delivered caspase-12 siRNA on the development of local leukocyte activation/function during sepsis. May 2008.

Honors *Second Reader*: Honors thesis project for B.S. degree.

Philomena Salvemini: Honors thesis project entitled. Inter- α -inhibitor and its beneficial effects during polymicrobial sepsis. May 2000.

David Ornan: Honors thesis project entitled. Alterations in adrenomedullin receptors during polymicrobial sepsis . May 2000.

Nicole Lockhart: Honors thesis project entitled: Cytochrome P450 and lidocaine clearance during sepsis. July 1999-May 2000.

Paul Frake: Honors thesis project entitled: Prestorage leukoreduction prevents accumulation of matrix metalloproteinases during blood storage. May 2004.

at University of Puerto Rico at Mayaguez, College of Arts & Sciences:

Preceptor/Supervisor for Practicum in Industrial Biotechnology/BIND 4905 for Arnaldo Carreira, project entitled: Determination of the extent to which PD-1 expression on CD4 T cells alters cell function during sepsis, June-July, 2008

Educational Activities:

at Michigan State University:

Organizer of Shock and Trauma Research Laboratories Journal Club, 1991-94

Contributing member, Department of Microbiology, Immunology Journal Club. 1989-95

at Rhode Island Hospital/ Brown University School of Medicine

Organizer of R.I. Hospital - Division of Surgical Research Journal Club, Spring 2001-Fall 2001

Organizer of the 'Surgical Research Seminar Series on: Topics in Inflammation and Injury in Critical Illness' at R.I. Hospital - Division of Surgical Research/Dept. Surgery/ Brown Univ. School of Medicine, Spring 2001-present

Organizer of R.I. Hospital - Division of Surgical Research - Joint laboratory meetings, Spring 2002-present.

Students and Residents Advised/Trained:

at Michigan State University:

Julie A. Felt, B.S.: Senior Medical Student. Project: The role of endotoxin in sepsis. April-June, 1989. (Cooperatively advised with Dr. J.M. Kisala)

Daniel R. Meldrum, B.S.: Medical Student. Projects in Michigan State University Biomedical Student Research Program. Project I title: A study of the effects of a calcium channel blocker on splenocyte function following hemorrhage. Supported by NIH Training Grant. June-September, 1989. (cooperatively advised with Dr. I.H. Chaudry)
Project II title: A study of the effects of hemorrhage on lymphocyte ATP levels utilizing ³¹P-NMR. Supported by NIH Training Grant. June-August, 1990. (Cooperatively advised with Dr. I.H. Chaudry)

Project III title: A study of the effects of ATP-MgCl₂ treatment on macrophage ATP levels, antigen presentation function, and IL-1, IL-6 and TNF synthesis following hemorrhage. (Supported by Edward L. Morehead II Research Award) August-September, 1991. (Cooperatively advised with Dr. I.H. Chaudry)

Project IV: A study of the mechanisms of the immunoprotective effects of diltiazem following hemorrhage (a portion of this work was presented at the Shock Society's Young Investigator Award Competition, 1992)

Jennifer Knotts, M.D.: Resident Research Program: Project concerned assessing changes in splenocyte total cellular calcium concentration and lymphokine production during polymicrobial sepsis. October, 1990-May, 1991.

Hugh Lindsey, M.D.: Project for M.S. in Surgery, (Thesis Committee Member): Proposed studies are directed at elucidating the role of cytokines in the production of hyperoxic lung injury. July, 1991-December, 1993.

Pragnesh Patel: Undergraduate independent research project (MPH 499): An investigation of the role of calcium induced mechanisms of cellular (i.e. lymphocyte) injury. June-December, 1991. (Cooperatively advised with Dr. I.H. Chaudry).

Patrick J. O'Neill, B.S.: Graduate student. Advised on studies concerning the association of IL-6 with ischemia/reperfusion injury of the bowel. January, 1990-June, 1993. (unofficial capacity).

Chris R. Pierson: Undergraduate independent research project (MPH 499): An investigation of

- the role of interferon- γ in hemorrhagic shock and sepsis. January-June, 1992. (Advisor).
- Aaron Mayberry, M.D.: Project for M.S. in Surgery (Thesis Committee member)- proposed studies are directed at elucidating the metabolic (pH, phagocytic, lysosomal, etc.) alterations which take place in macrophages following hemorrhage. July, 1992-Dec, 1995.
- Samuel Wurster, M.D.: Project for M.S. in Surgery (Thesis Committee member)- proposed studies are directed at assessing the changes induced in vascular reactivity during sepsis and what causes these changes. July, 1992-July, 1995.
- Zoe K. Deol, B.S.: Senior Medical Student Research Elective. Project: The role of endotoxin in multiple organ failure during polymicrobial sepsis. March, 1993-January, 1994.
- Ann D. Hampton: Undergraduate independent study (PSL 480). Project: Investigation of the capacity of IL-1ra to reverse the immunosuppressive effects of hemorrhage on immune function. June-August, 1993.
- Robert G. Molnar, M.D.: Project for M.S. in Surgery (Thesis Committee member)- proposed study directed at assessing the role of neutrophils in the induction of hepatocellular dysfunction observed during sepsis. July, 1993-December, 1995.
- Yvette Vargaz: Undergraduated Independent Study (PSL 480). Project: Establish primary hepatocellular clones and hepatoma cell line for study of kupffer cells effects on hepatocytes during sepsis. September-December, 1993
- Heather Childers: Undergraduate Independent Study (PSL 480). Project: Assess the role of programmed cell death (apoptosis) in the dysfunction in lymphocytic response seen following sepsis. September, 1993-January, 1994.
- David M. Kam, M.D.: Project for M.S. in Surgery (Thesis Committee member) - proposed study entitled: Seventy kilodalton stress protein (hsp70) gene expression in the mouse: the effect of sepsis and hemorrhage. July, 1993-December, 1995.
- JoAnn Palma, B.S.: Project for Ph.D. in Biology (Thesis Committee member) - proposal for thesis entitled: Mechanism(s) of action of the anti-cancer drugs cisplatin and carboplatin. October, 1993-January, 1995.
- Albert M. Morrison, M.D.: Project for M.S. in Surgery (Thesis Committee member) - proposed study directed at comparing the capacity of heparin as opposed to chemical modified heparin to restore endothelial cell nitric oxide function during sepsis. July, 1994-December, 1995.

John Kepros, M.D.: Project for M.S. in Surgery (thesis Committee member) - proposed study directed at determining if the salutary effects of chemically modified heparin and heparin are mediated through inhibition of TNF. July, 1994-December, 1995

Shariff K. Bishai: Undergraduate Independent Study (PSL 480). Project: To assess the role of programmed cell death in the dysfunction induced in hepatocytes during exposure to cytokines (TNF). September-December, 1994.

Stacey Uebele: Undergraduate Independent Study (MPH 499). Project: To assess the effects of kupffer cell depletion (using the agent gadolinium chloride) on the systemic inflammatory cytokine response and host immunity during polymicrobial sepsis. January-April, 1995.

Marcy A. Urbanich: Undergraduate Independent Study (MPH 499): Project: To determine if polymicrobial sepsis induces apoptosis in macrophage and neutrophils. January-April, 1995.

David S. Suri: Undergraduate Independent Study (PSL 480): Project: To compare the effects of low-dose endotoxin infusion to polymicrobial sepsis on the transcription of the inflammatory cytokine (TNF- α , IL-1 β , IL-6, TGF- β) genes in mouse macrophage. January-April, 1995.

Amy E. Mueller: Undergraduate Independent Study (MPH 499): Project: To determine whether or not evidence of programmed cell death is present in hepatocytes isolated from the liver of septic mice. May-August, 1995.

Dianne E. Sonefeld: Undergraduate Independent Study (MPH 499): Project: To determine whether or not evidence of altered IgA secretion is evident in B-cells isolated from the Peyer's Patches of septic mice. September-December, 1995.

at Brown University:

Amit R.T. Joshi, B.A.: Summer Medical Student Research Assistantship Award (Summer 1998): Project: The role of NF- κ B in the onset of immune cell apoptosis subsequent to polymicrobial sepsis. February, 1998-present. Medical Student Independent Study Elective (Medicine 710)- NF- κ B activation has tissue specific effects on immune cell apoptosis during polymicrobial sepsis. September 2000-January 2001.

Grace Y. Song, B.A.: Research Assistant/Medical Student: The role of IL-10 and altered signal transduction events in the induction of immune suppression in polymicrobial sepsis. January, 1998- May, 2002.

Medical Student Independent Study Elective (Medicine 710)- Role of p38 MAPK in the immune dysfunction seen in polymicrobial sepsis. September, 2000-May, 2002.

- Lara Watkins: Undergraduate from Providence College/Laboratory Aide:
 Project I title: The role of MAPK in macrophage dysfunction observed following the onset of polymicrobial sepsis. March, 1997- August 1998.
- Project II title: Assessment of 3-aminopropanal effect on splenocyte apoptosis and/or function? September, 1998-May, 2000.
- Project III title: Determination of the contribution of CD8 and/or γ/δ -T-cells in the induction of immune dysfunction seen septic mice. June, 2000-August, 2001.
- Rory A. Priester, B.A.: Project Tech./Medical Student: The role PKC in the regulation of increased activation induced apoptosis encounter in sepsis. June-August, 1999.
- Samantha R. Mekrut: Undergraduate from Fairfield College/Laboratory Aide: SOCS protein expression in sepsis. June-August, 2000.
- Crystal Lane: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: The contribution of CD1d regulatory T-cells to immune suppression seen in sepsis. June- August, 2000.
- Rebecca Rhee: Undergraduate from Brown University/Laboratory Aide: (*Mentor*- independent study/undergrad thesis). The contribution of NK-T-cells to immune suppression seen in sepsis. (Independent study/undergrad thesis) January, 2001- May 2002.
- Gil Freitas: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: Project: Does the immune response to tissue injury produce comparable changes in cell-signaling to that seen in sepsis. June-August, 2001.
- Shayla M. Toombs: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: Project: Assessment of the Mode of Action of FasL mediated Septic Mortality. June-August, 2002.
- Sara M. Bray: Summer-Undergraduate Teaching & Research Assistantship (*Mentor*-independent study/undergraduate thesis). Project: Do alterations in co-stimulant receptors take place in septic mice and does it enhance or suppress survival of septic challenge. June, 2002-June, 2003
- Shaun Murphy, B.S: Project for Ph.D. in Pathobiology (thesis Committee member)- project entitled: "Physiological association between IL-10 deficiency, inflammation and uterine NK cells in pregnancy outcome." June 2002-2006.
- Leslie Jones: Summer undergraduate student in the *NIH Short Term Training for*

Minority Students Program/ Leadership Alliance: Project 1: "Intracellular Localization of Specific Pro-/Anti-apoptotic Bcl-family Proteins (e.g., BID) in Response Death Receptor (FasL) Driven Apoptosis seen in Polymicrobial Sepsis." June-August, 2003.

Project 2: "Assessment of BID gene deficiency and/or gene silencing (BID siRNA) capacity to suppress apoptosis and improve survival seen following polymicrobial sepsis". June-August, 2004

Johnna Wesley, B.S.: Project for Ph.D. in Pathobiology (thesis Committee member)- project entitled: "Mechanisms of V α 14 μ -NK-T-Cell Activation of NK Cells". May 2003-May, 2007.

Doreen E. Wesche-Soldato, B.S.: Project for *Ph.D. in Graduate Pathobiology Program (Major Advisor* –thesis committee member) - project entitled: "Assessment of the capacity of anti-Fas and/or anti-FasL siRNA to reverse liver and GI morbidity and mortality seen with polymicrobial sepsis." June, 2003-May 2007

Megan Garber, B.S.: Project for *Ph.D. in Graduate Pathobiology Program (Major Advisor* - thesis committee member) - project entitled: "The role of IL-16 in the development of immune dysfunction and apoptotic changes seen in sepsis." September, 2003-2007 (received M.S.)

Antonio Funches: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: Project: "Determination of the extent $\gamma\delta$ T-cells residing in the intra-epithelial lymphoid cell compartment of the gut induced to undergo apoptosis during sepsis and the degree to this is death receptor (Fas-FasL) mediated" June-August, 2005.

Caroline Hu: Summer student-res. assist. (*Mentor*-independent study/undergraduate thesis). Project: "Role of liver NK-T-cells in the development of immune/hepatic dysfunction and injury in septic mice." June 2005-August 2006.

Yvonne Wang: Summer student-res. assist. (*Mentor*-independent study). Project: "Role of CD1d+ Antigen Presenting Cells in the Development of Immune/Hepatic Dysfunction in Septic Mice." January 2006-Fall 2007.

Summer medical student-res. assist. (*Mentor*-independent study/PLME res.). Project: "The role of PD-1 in Liver Non-Parenchymal cells on the induction of liver inflammation/damage during sepsis." June 2008-**present**.

Leia L. Foster: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: Project: "Assessment of cross-linked strept-avidin/protamine's capacity to serve in targeted siRNA delivery" June-August, 2006.

Sam McNeal, B.S.: Project for Ph.D. in Graduate Pathobiology Program (**Major Advisor** - thesis committee member) - project entitled: "The role of RIP1 in hepatocyte induced apoptotic/non-apoptotic cell cytotoxicity seen in sepsis." September, 2006-**present**

Earl Campbell, III: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: Project: "Assessment of the effect of caspase 12 gene silencing on septic morbidity" June-August, 2007.

Ana Moreno: Undergrad. Honors thesis (*Mentor-independent study/undergraduate thesis*). Project: "Determination of the Effect of Intra-peritoneally Delivered Caspase-12 siRNA to the Development of not only Local Leukocyte Activation/Apoptosis but Overall Mortality during Sepsis." September 2007-May 2008.

Pamela J. Gaddi, B.S: Project for Ph.D. in Pathobiology (thesis Committee member) - project entitled: "Role of IL-10 in the regulation of acute cytomegalovirus infection". September 2007-**present**.

Douglas C. Wilson, B.S: Project for Ph.D. in Pathobiology (thesis Committee member) - project entitled: "IL-12 signaling drives CD8 T cell IFN-gamma production and effector sub-population differentiation during *Toxoplasma gondii* infection". September 2007-**present**.

Courtnei Newsome, B.S.: Project for Ph.D. in Pathobiology (thesis Committee member) - project entitled: "Characterization of the effects of beta-glucan on the septic mouse immune response". May 2008-**present**. (Co-sponsor F31 application-*funded*)

Tani Nevers, B.S.: Project for Ph.D. in Pathobiology (thesis Committee member) - project entitled: "Characterization of CXCL9 and CXCL10 on CD8+ T cell effector functions during murine cytomegalovirus infection". May 2008-**present**.

Arnaldo Carreira: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: Project: "PD-1 gene deficiency suppresses sepsis induced increase in macrophage migratory capacity", June-August, 2008.

Emma Reilly, B.S: Project for Ph.D. in Pathobiology (thesis Committee member) - project entitled: "Understanding the Roles of CD1d Regulation and Type II NKT cells During MCMV Infection " July 2008-**present**.

Victoria Ruiz, B.S: Project for Ph.D. in Pathobiology (thesis Committee member) - project entitled: "*H. Pylori* infection and manipulation of the host immune response." July 2008-**present**. (Co-sponsor F31 application)

Noelle Hutchins, B.S.: Project for Ph.D. in Graduate Pathobiology Program (**Major Advisor** -

thesis committee member) - project entitled: "Fatal Attraction: T lymphocytes and liver endothelial cells during sepsis.", June, 2008-**present** (Sponsor/Mentor F31 application-*funded*)

Sadella Santos: Summer undergraduate student in the *NIH Short Term Training for Minority Students Program/ Leadership Alliance*: Project: "PD-1 gene deficiency suppresses sepsis induced increase in lymphocyte migratory capacity", June-August, 2009.

Sima Patel: Summer student/UTRA-res. assist. (*Mentor-independent study*). Project: "The Role of PD-1:PD-L1/L2 in the Induction of Small Intestine Inflammation during Sepsis." June 2009-present.

Nicholas Carter: Summer medical student res. experience (*Co-mentored with Dr. Joanne Lomas-Neira*). Project: "The role of pulmonary endothelial cell (EC) growth factor, Angiopoietin-2 (Ang-2), in the development of hemorrhage/sepsis associated (indirect) ALI in mice." June-August, 2009.

Nicholas Shubin, B.S.: Project for *Ph.D. in Graduate Pathobiology Program (Major Advisor - thesis committee member)* - project entitled: "The mechanism by which NKT-cells mediated the local liver/SIRS response seen in septic shock.", June, 2009-**present**

Ye Sul Kim: Undergraduate independent study (*Mentor-independent study*). Project: "Mechanism(s) by which signaling via PD-1 alters monocyte/macrophage migratory function during severe sepsis." September 2009-**present**.

Post-Doctoral Fellows/Research Associates Trained:

at Brown University/Rhode Island Hospital:

Todd E. Williams, M.D.: Resident Research fellow, Project: Regulation of inducible cell death (apoptosis) in septic mouse macrophage. February, 1996-July, 1996.

Elena V. Cahoone, M.D.: Post-doctoral Fellow: Attached to NIH GM-46354, project entitled: Differential Effects of Sepsis on Macrophage Function. January, 2000-February, 2001.

Chun-Shiang Chung, Ph.D.: Post-doctoral Fellow: Attached to NIH GM-53209, project entitled: Programmed Cell Death -- Role in Septic Immune Suppression. January, 1997-June, 2002.

Patricia S. Grutkoski, Ph.D.: Post-Doctoral Fellow: Co-advised with Dr. H. Hank Simms and attached to NIH R01-GM 53114, project entitled: Hypoxemia/reoxygenation and cytokine - PMN interactions. October, 2000-June, 2002.

Yanli Ding, D.D.S., Ph.D.: Post-Doctoral Fellow: Attached to NIH GM-46354, project entitled: Differential effects of sepsis on macrophage function. February, 2002-April, 2003.

Mario Perl, M.D.: Post-Doctoral Fellow: Attached to NIH HL63898-01, project entitled: Regulatory Mechanisms of Acute Lung Injury: Phagocyte Apoptosis." April 2004-June 2006.

Xin Huang, M.D., Ph.D.: Post-Doctoral Fellow: Attached to NIH GM-46354, project entitled: Differential effects of sepsis on macrophage function. September 2004- **present**.

Ryan Swan, M.D., Resident-N.I.H. Training Grant Fellow: Attached to NIH GM-53209, project entitled: Programmed Cell Death -- Role in Septic Immune Suppression. June, 2005-June 2007.

Joanne A. Lomas-Neira, M.S., Ph.D.: Post-Doctoral Fellow: Attached to NIH HL-63898, project entitled: Regulatory Mechanisms of Acute Lung Injury: Phagocyte Apoptosis." May, 2006- June, 2009.

Brian Horner, D.O.: Resident (Pulmonary) Training Fellow (co-directed/supervised with Nicholas Ward, M.D.): Attached to Lilly-Activated Protein C Project & NIH GM-46354, project entitled: "Differential effects of sepsis on macrophage function." July, 2006-2007.

Fabienne Venet, PharmD., M.S., Ph.D.: Post-Doctoral Fellow: Attached to NIH HL63898, project entitled: "Regulatory Mechanisms of Acute Lung Injury: Phagocyte Apoptosis." & NIH GM-46354, project entitled: "Differential effects of sepsis on macrophage function." October, 2006-November, 2008.

Gwendolyn F. Elphick, M.S., Ph.D., Post-Doctoral Fellow: Attached to NIH GM-46354, project entitled: Differential effects of sepsis on macrophage function. July 2007- **present**.

Rajan Takkar, M.D., Resident-Versaci Award Fellow: Attached to NIH HL63898, project entitled: "Regulatory Mechanisms of Acute Lung Injury: Phagocyte Apoptosis.". July, 2008-**present**.

Sean Monaghan, M.D., Resident-Versaci Award Fellow: Attached to NIH HL46354, project entitled: "PD-1 role in Monocyte/Macrophage and/or T-cell dysfunction encountered following traumatic injury and shock.". July, 2009-**present**.

Faculty Mentor (NIH-K series awards, Early Career Fellowships, etc.):

Lesley A, Doughty, M.D., Assistant Professor - Department of Pediatrics and Division of Surgical Res./Department of Surgery, R.I. Hospital/Brown University School of Medicine, Providence, RI, June 2004-2005. (*KO8 awardee & C.M. Hood Grt*)

Chun-Shiang Chung, Ph.D.: Assistant Professor (Research)- Department of Surgery, Division of Surg. Res., R.I. Hospital/Brown University School of Medicine, Providence, RI, July 2005-2007. (*Shock Society/Novo Nordisk-New Investigator Fellowship & Rhode Island Foundation*)

Daithi Heffernan, M.D., Assistant Professor - Division of Surgical Res./Department of Surgery, R.I. Hospital/Brown University School of Medicine, Providence, RI, January 2008-present. (Applied: *Surgical Infections Society's-early career researcher award & Rhode Island Foundation*)

Joanne Lomas-Neira, Ph.D., Instructor of Surgery (Research) - Division of Surgical Res./ Department of Surgery, R.I. Hospital/Brown University School of Medicine, Providence, RI, January 2008-present. (Applied: *Parker E Francis Fellowship & Amer. Lung Assoc.- Independent Scientist Award*)

Trainees Who Have Advanced to Faculty Positions:

Chun-Shiang Chung, Ph.D.: Instructor- Department of Surgery, Division of Surg. Res., R.I. Hospital/Brown University School of Medicine, Providence, RI, June 2002-2004

Chun-Shiang Chung, Ph.D.: Assistant Professor (Research)- Department of Surgery, Division of Surg. Res., R.I. Hospital/Brown University School of Medicine, Providence, RI, June 2004-**present**.

Patricia S. Grutkoski, Ph.D.: Instructor- Department of Surgery, Division of Surg. Res., R.I. Hospital/Brown University School of Medicine, Providence, RI, June 2002-2003.

Lesley A. Doughty, M.D., Associate Professor - Department of Pediatrics and Division of Surgical Res., Children's Hospital at the University of Cincinnati, Cincinnati, OH, February 2005-June 2006.

Mario Perl, M.D., Assistant Professor - Albert Einstein Med. College at University of Ulm, Ulm, Germany. June 2006-**present**.

Joanne Lomas-Neira, Ph.D., Instructor of Surgery (Research) - Division of Surgical Res./ Department of Surgery, R.I. Hospital/Brown University School of Medicine, Providence, RI, January 2008-present.

Doreen Soldato (maiden name: Wesche), Ph.D., Assistant Professor of Microbiology & Immunology, School of Pharmacy, St. Josephs College, Hartford, CT, January 2010-present.

Trainees Who Have Gone on to Industry:

Patricia S. Grutkoski, Ph.D.: Research Scientist; Repro-Medics, Cambridge, MA,
July 2003-2005.

- Technical Service Manager of the Toxicology Division, Toxikon, Inc., Bedford, MA, January 2006-2007
- Res. Scientist, Abbott Northwestern Hospital, Molecular Diagnostic/Flow Cytometry Lab, Minneapolis, MN **2007-present.**

Trainees Who Received Awards:

at Michigan State University:

Daniel R. Meldrum, B.S. (Medical Student): Awarded First Place at the Sixth Annual Michigan State University Biomedical Student Research Program. Title of presentation, "Diltiazem restores lymphokine synthesis and decreases susceptibility to sepsis following hemorrhage."

Daniel R. Meldrum, B.S., (Medical Student): *Association for Academic Surgery Student Research Award*, October 1991.

Daniel R. Meldrum, M.D.: *Finalist in the Young Investigator Award Competition*, 15th Annual *Shock Society Meeting*, Mobile, AL, June 7-10, 1992.

Patrick J. O'Neill, B.S. (Graduate Student): Awarded First Place in Graduate Student Competition at the Eighth Annual Department of Surgery Research Day Forum, Michigan State University, March 12, 1992.

Patrick J. O'Neill, B.S.: (Graduate Student) Recipient of Graduate Student *Travel Award* to present paper at 15th Annual *Shock Society Meeting*, Mobile, AL, June 7-10, 1992.

Hugh Lindsey, M.D.: Awarded First Place in Resident Basic Science Competition at the Eighth Annual Department of Surgery Research Day Forum, Michigan State University, March 12, 1992.

Patrick J. O'Neill, B.S. (Graduate Student): Awarded First Place in Graduate Student Competition at the Ninth Annual Department of Surgery Research Day Forum, Michigan State University, March 11, 1993.

Hugh Lindsey, M.D.: Awarded First Place in Resident Basic Science Competition at the Ninth Annual Department of Surgery Research Day Forum, Michigan State University, March 11, 1993.

Patrick J. O'Neill, Ph.D.: *1st Place Honors of Young Investigator Award Competition*, 16th Annual *Shock Society Meeting*, Santa Fe, NM, June 13-16, 1993.

Aaron J. Mayberry, M.D.: Winner of *Travel Fellowship* for presentation at 7th Annual Meeting of the Association for Academic Minority Physicians, Washington, D.C., October 22-24, 1993.

Robert G. Molnar, M.D.: Awarded First Place in Resident Basic Science Competition at the Tenth Annual Department of Surgery Research Day Forum, Michigan State University, March 17, 1994.

Robert G. Molnar, M.D.: Winner of *Travel Award* for presentation at 17th Annual *Shock Society Meeting*, Big Sky, MT, June 5-8, 1994.

Robert G. Molnar, M.D.: Awarded First Place in Resident Basic Science Competition at the Eleventh Annual Department of Surgery Research Day Forum, Michigan State University, March 31, 1995.

at Brown University/Rhode Island Hospital:

Martin K. Angele, M.D.: Winner of *Travel Award* for presentation at 20th Annual *Shock Society Meeting*, Indian Wells, CA, June 15-18, 1997.

Martin K. Angele, M.D.: Finalist in young investigator award competition at 5th Annual Research Celebration at Rhode Island Hospital, November 11, 1997.

Volker Kahlke (Medical Student): Finalist in young investigator award competition at 5th Annual Research Celebration at Rhode Island Hospital, November 12, 1997.

Robert A. Catania, M.D.: Winner of *Travel Award* for presentation at 21th Annual *Shock Society Meeting*, San Antonio, TX, June 14-17, 1998.:

Chun-Shiang Chung, Ph.D.: Winner of *Travel Award* for presentation at 21th Annual *Shock Society Meeting*, San Antonio, TX, June 14-17, 1998.

Marcus W. Knöfrel, M.D.: Finalist in young investigator award competition at 6th Annual Research Celebration at Rhode Island Hospital, November 17, 1998.

Grace Y. Song, B.A. (Graduate/Medical Student): Finalist in the *Young Investigator Award Competition* and a *Travel Award* for a presentation at the 4th International Shock Congress (22nd Annual *Shock Society Meeting*), Philadelphia, PA, June 12-16, 1999.

Chun-Shiang Chung, Ph.D.: Winner of *Travel Award* for presentation at the 4th International Shock Congress (22nd Annual *Shock Society Meeting*), Philadelphia, PA, June 12-16, 1999.

Florian, Fitzal, B.S.: Winner of *Travel Award* for presentation at the 4th International Shock Congress (22nd Annual *Shock Society Meeting*), Philadelphia, PA, June 12-16, 1999.

Marcus W. Knöfrel, M.D.: Winner of *Travel Award* for presentation at the 23rd Annual *Shock Society Meeting*, Snowbird, UT, June 3-7, 2000.

Grace Y. Song, B.A. (Graduate/Medical Student): Recipient of *Alpha Omega Alpha Student Research Fellowship* for proposal entitled: Intracellular signaling pathways involved in the suppression of cell-mediated immunity seen in the septic host: the role of p38 MAPK. April-December 31, 2001.

Grace Y. Song, B.A. (Graduate/Medical Student): Winner of *Travel Award* for a presentation at the 24th Annual *Shock Society Meeting*, Marco Island, FL, June 9-13, 2001.

Joanne L. Lomas, M.S. (Graduate Student): *Finalist in the SLB Presidential Students Awards Competition* (includes *Travel Award*) at the conjoined 9th International Cytokine Society Meeting and the 35th Annual Society of Leukocyte Biology Meeting, Maui, HI, November 8-11, 2001.

Patricia S. Grutkoski, Ph.D.: Winner of *Travel Award* for presentation at the conjoined 9th International Cytokine Society Meeting and the 35th Annual Society of Leukocyte Biology Meeting, Maui, HI, November 8-11, 2001.

Sara Bray (Brown Univ. undergraduate): Winner of K.T. Romer-Undergraduate Teaching & Research Assistantship (UTRA) award. June-August, 2002.

Rebecca J. Rhee: Recipient of "Honors in Biology" designation/prize along with Bachelor of Arts degree from Brown University, May 2002

Joanne L. Lomas, M.S. (Graduate Student): *Finalist in the Young Investigator Competition* (includes *Travel Award*) at the 25th Annual *Shock Society Meeting*, Big Sky, MT, June 8-11, 2002.

Joanne L. Lomas, M.S. (Graduate Student): *American Society for Investigative Pathology-Trainee Travel Award* for 2003 Experimental Biology Meeting, San Diego, CA, April 11-15, 2003.

Sara M. Bray: Recipient of "Honors in Biology" designation/prize along with Bachelor of Arts degree from Brown University, May 2003.

Joanne L. Lomas, M.S. (Graduate Student): *Travel Awardee* at the 26th Annual *Shock Society Meeting*, Phoenix, AZ, June 7-10, 2003.

Joanne L. Lomas, M.S. (Graduate Student): *Travel Awardee* at the 36th Annual Society of Leukocyte Biology Meeting, Philadelphia, PA, October 2-5, 2003.

Doreen E. Wesche, B.S. (Graduate Student): *American Society for Investigative Pathology-Trainee Travel Award Trainee Travel Award* for Experimental Biology conference in Washington, D.C., April 2004

Joanne L. Lomas, M.S. (Graduate Student): 27th Annual *Shock Society Meeting*, Halifax, Nova Scotia, CANADA, June 5-8, 2004

Doreen E. Wesche, B.S. (Graduate Student): *1st Place Honors (winner) of the New Investigator Competition* (includes *Travel Award*) at the 27th Annual *Shock Society Meeting*, Halifax, Nova Scotia, CANADA, June 5-8, 2004.

Joanne L. Lomas, M.S. (Graduate Student): *Travel Awardee* at the 37th Annual Society of Leukocyte Biology Meeting, Toronto, Ontario, CANADA, October 21-23, 2004.

Mario Perl, M.D. (Post-Fellow/Res. Assoc.): *Travel Awardee* at the 37th Annual Society of Leukocyte Biology Meeting, Toronto, Ontario, CANADA, October 21-23, 2004.

Joanne L. Lomas-Neira, M.S. (Graduate Student): *Finalist in the Young Investigator Award Competition* at the 12th Annual Research Celebration at Rhode Island Hospital, October 28, 2004.

Benjamin Galen, Recipient of "Biology Prize" designation/prize along with Honors- Bachelor of Science degree from Brown University, May 2005.

Doreen E. Wesche, B.S. (Graduate Student): *Travel Awardee* at the 28th Annual *Shock Society Meeting*, Marco Island, FL, June 4-7, 2005.

Mario Perl, M.D. (Post-Fellow/Res. Assoc.): *Finalist in the Young Investigator Competition* (includes *Travel Award*) at the 28th Annual *Shock Society Meeting*, Marco Island, FL, June 4-7, 2005.

Mario Perl, M.D. (Post-Fellow/Res. Assoc.): *Finalist in the American College of Surgeon's/ New England Regional Resident Paper Competition* at the 10th Annual *New England Regional Trauma Conference*, Burlington, MA, Novemebr 10, 2005.

Doreen E. Wesche-Saldato, B.S. (Graduate Student): Selected for presentation as a part of "*ASIP-Highlights: Graduate Student Posters in Pathology*" at the Experimental Biology conference in San Francisco, CA, April 1, 2006.

Doreen E. Wesche-Saldato, B.S. (Graduate Student): Selected for presentation as a part of "*ASIP-Predoctoral-Merit Award*" at the Experimental Biology conference in San Francisco, CA, April 3, 2006.

Caroline Hu: Recipient of "Honors in Biology" designation/prize along with Bachelor of Arts degree from Brown University, May 2005

Mario Perl, M.D. (Post-Fellow/Res. Assoc.): *Travel Awardee* at the 29th Annual *Shock Society*, Broomfield, CO, June 3-6, 2006.

Doreen E. Wesche-Soldato, B.S. (Graduate Student): *Finalist in the New Investigator Competition* (includes *Travel Award*) at the 29th Annual *Shock Society* Meeting, Broomfield, CO, June 3-6, 2006.

Mario Perl, M.D. (Post-Fellow/Res. Assoc.): *Finalist in the New Investigator Competition* at the 29th Annual *European Shock Society* Meeting, Ulm, Germany, September 14-16, 2006. (*Winner of competition*).

Doreen E. Wesche, B.S. (Graduate Student): *Student/Postdoctoral Fellow travel award* to the 2006 joint 39th Society of Leukocyte Biology (SLB)/ 8th Biennial Meeting of the International Endotoxin & Innate Immunity Society (INIIS) meeting, to be held in San Antonio, TX, November 9-11, 2006

Mario Perl, M.D. (Post-Fellow/Res. Assoc.): *Travel Awardee* at the 30th Annual *Shock Society*, Baltimore, MD, June 9-12, 2007.

Fabienne Venet, Ph.D., PharmD. (Post-Fellow/Res. Assoc.): *Student/Postdoctoral Fellow travel award* to the 40th Society of Leukocyte Biology (SLB) meeting, held in Cambridge MA, October 11-13, 2007

Joanne L. Lomas-Neira, Ph.D., M.S. (Post-Fellow/Res. Assoc.): *Finalist in the Young Investigator Award Competition* at the 15th Annual Hospitals Research Celebration at Rhode Island Hospital, November 8, 2007.

Fabienne Venet, M.S., PharmD, Ph.D. (Post-doctoral fellow): *American Society for Investigative Pathology-Trainee Travel Award* for 2008 Experimental Biology Meeting, San Diego, CA, April 5-9, 2008.

Joanne L. Lomas, M.S., Ph.D. (Post-doctoral fellow): *A.D. Sobel- American Society for Investigative Pathology Education Fund Scholar Award* for 2008 Experimental Biology Meeting, San Diego, CA, April 5-9, 2008.

Fabienne Venet, Ph.D., PharmD. (Post-Fellow/Res. Assoc.): *Travel Awardee* at the conjoined 6th International Federation of Shock Society (*IFSS*)/31th Annual *Shock Society* meeting, Cologne, Germany, June 28-July 2, 2008.

Yvonne Wang (Brown Univ. Medical Student): Winner of Medical Student Summer Research Assistantship (UTRA) award. June-August, 2008.

Fabienne Venet, Ph.D., PharmD. (Post-Fellow/Res. Assoc.): Prix (Price) Jansen, from the Académie Nationale de Médecine = for work on the topic entitled : *Altérations lymphocytaires*

induites par les états septiques sévères: vers de nouvelles perspectives diagnostiques et thérapeutique - Paris, France. July, 2008.

Joanne L. Lomas, M.S., Ph.D. (Post-doctoral fellow): *Student/Postdoctoral Fellow travel award* to the 41st Society of Leukocyte Biology (SLB) meeting, held in Denver, CO, November 6-8, 2008.

Gwendolyn F. Elphick, M.S., Ph.D. (Post-doctoral fellow): *Student/Postdoctoral Fellow travel award* to the 41st Society of Leukocyte Biology (SLB) meeting, held in Denver, CO, November 6-8, 2008.

Fabienne Venet, M.S., Ph.D., PharmD. (Post-doctoral fellow): *Student/Postdoctoral Fellow travel award* to the 41st Society of Leukocyte Biology (SLB) meeting, held in Denver, CO, November 6-8, 2008.

Lomas-Neira, J. M.S., Ph.D. (Post-doctoral fellow): Selected for receipt of “ASIP-Experimental Pathologist-in-Training ‘Merit’ Award (EPIT)” at the Experimental Biology conference in New Orleans, LA, April 22, 2009.

Sima Patel (Brown University-undergraduate) Recipient of “Donna Williamson Erickson '74 Endowed” Summer Research Collaboration Fellowship (UTRA). June-August, 2009

Lomas-Neira, J. M.S., Ph.D. (Instructor): Selected for receipt of “Gordon Conference Scholarship” to defray cost of attending the ‘2009-Angiogenesis-Gordan Research Conference’ at Salve Regina University in Newport, RI, August 2-7, 2009.

Rajan Thakkar, M.D. (Resident/Post-Fellow): *Finalist in the Young Investigator Award Competition* at the 17th Annual Research Celebration at Rhode Island Hospital, October 22, 2009.

HOSPITAL TEACHING ROLES

Preceptor for Surgical Residents Basic Science Conference (R.I. Hospital):
Oct 1996, Aug 1997, Sept 1998, Dec 2000

Research Mentor-T32-NRSA surgical resident fellow, Ryan Z. Swan, originally from R.I. Hospital/Brown Univ. Surgical Residency Program.

Research Mentor-Versaci Award surgical resident fellow, Rajan Takkar, originally from R.I. Hospital/Brown Univ. Surgical Residency Program.

Research Mentor-Versaci Award surgical resident fellow, Sean Monaghan, originally from R.I. Hospital/Brown Univ. Surgical Residency Program.
