

## Jan Tullis Publications

### Books co-edited

Snoke, A., Tullis, J., and Todd, V., eds., 1999, *Fault-Related Rocks: A Photographic Atlas*. Princeton Univ. Press, 617 p.

### Refereed journal articles

- Tullis, J., 1970, Quartz: preferred orientation in rocks produced by Dauphine twinning: *Science*, 168, 1342-1344.
- Heuer, A.H., Firestone, R.F., Snow, J.D., and Tullis, J., 1971, Non-basal slip in alumina at high temperatures and pressures, in Kriegel, W.W. and Palmour, H., eds., *Ceramics in Severe Environments: Mat. Sci.*, 5, 331-340.
- Tullis, J. and Tullis, T.E., 1972, Preferred orientation of quartz produced by mechanical Dauphine twinning: thermodynamics and axial experiments: in H. Heard et al., eds., *Flow and Fracture of Rocks: Amer. Geophys. Union Monograph*, 16, 62-82 (invited).
- Tullis, J., Christie, J.M., and Griggs, D.T., 1973, Microstructures and preferred orientations in experimentally deformed quartzites: *Geol. Soc. Amer. Bull.*, 84, 297-314.
- Ardell, A.J., Christie, J.M., and Tullis, J.A., 1973, Dislocation substructures in deformed quartz rocks: *Crystal Lattice Defects*, 4, 275-285.
- Tullis, J., 1975, Elastic strain effects in coherent perthitic feldspars: *Contrib. Mineral. Petrol.*, 49, 83-91.
- Tullis, J., 1977, Preferred orientation of quartz produced by slip during plane strain: *Tectonophysics*, 39, 87-102.
- Giletti, B.J. and Tullis, J., 1977, Studies in diffusion IV: Pressure dependence of Ar diffusion in phlogopite mica: *Earth and Planetary Sci. Lett.*, 35, 180-183.
- Crawford, M.L., Moody, J.B., and Tullis, J., 1977, Women in academia: Students and professors: *Geology*, 8, 502-503.
- Tullis, J., and Yund, R.A., 1977, Experimental deformation of dry Westerly granite: *Jour. Geophys. Res.*, 82, 5705-5718.
- Mitra, S. and Tullis, J., 1979, A comparison of intracrystalline deformation in naturally and experimentally deformed quartzites: *Tectonophysics*, 53, T21-T27.
- Tullis, J., Shelton, G.L., and Yund, R.A., 1979, Pressure dependence of rock strength: Implications for hydrolytic weakening: *Bull. Mineral.*, 102, 110-114.
- Tullis, J. and Yund, R.A., 1979, Calculation of coherent solvi for alkali feldspar, iron-free clinopyroxene, nepheline-kalsilite, and hematite-ilmenite: *Amer. Mineral.*, 64, 1063-1074.
- Tullis, J., 1979, High temperature deformation of rocks and minerals: *Rev. Geophys. Space Phys.*, 17, 1137-1154 (invited).
- Yund, R.A. and Tullis, J., 1980, The effects of water, pressure, and strain on Al/Si order-disorder kinetics in feldspar: *Contrib. Mineral. Petrol.*, 72, 297-302.
- Tullis, J., and Yund, R.A., 1980, Hydrolytic weakening of experimentally deformed Westerly granite and Hale albite rock: *Jour. Struc. Geol.*, 2, 439-451.
- Shelton, G.L., Tullis, J., and Tullis, T.E., 1980, Experimental faults at high temperature and pressure: *Geophys. Res. Lett.*, 8, 55-58.
- Yund, R.A., Smith, B.M., and Tullis, J., 1981, Dislocation-assisted diffusion of oxygen in albite: *Phys. Chem. Mineral.*, 7, 185-189.
- Tullis, J. and Yund, R.A., 1982, Grain growth kinetics of quartz and calcite aggregates: *Jour. Geol.*, 90, 301-318.
- Tullis, J., Snoke, A., and Todd, V., 1982, Significance and petrogenesis of mylonitic rocks: *Geology*, 10, 227-230.
- Yund, R.A. and Tullis, J., 1986, Strained cell parameters for coherent lamellae in alkali feldspars and iron-free pyroxenes. *M. Jb. Miner. Mh.* 1, 22-34.
- Yund, R.A. and Tullis, J., 1983, Subsolvus phase relations in the alkali feldspars with emphasis on coherent phases: *Min. Soc. Amer., Reviews in Mineralogy - Feldspar Mineralogy* (2nd edition), 141-176.
- Tullis, J., 1983, Deformation of feldspars: *Min. Soc. Amer., Reviews in Mineralogy - Feldspar Mineralogy* (2nd edition), 297-323 (invited).
- Tullis, T.E. and Tullis, J., 1983, Experimental rock deformation: History and influence on structural geology: in, *Revolution in the Earth Sciences*, ed. S. Boardman, 1-11 (invited).

## Jan Tullis Publications

- Christoffersen, R., Yund, R.A., and Tullis, J., 1983, Inter-diffusion of K and Na in alkali feldspars: diffusion couple experiments: *Amer. Mineral.*, 68, 1126–1133.
