preprints:

- Billiards Obtuse and Irrational, light and breezy article (2005)
- Obtuse Triangular Billiards II: 100 Degrees Worth of Periodic Trajectories preprint (2005)
- The modular group, the Whitehead link, and spherical CR geometry preprint, 2004
- The Poncelet Grid preprint, 2002
- Discrete Monodromy, Pentagrams, and the Method of Condensation preprint, 2001

publications:

- Affine Subdivision, Steerable Semigroups, and Sphere Coverings Quarterly Journal of Pure and Applied Mathematics (Special volume in honor of G.A. Margulis’ 60th Birthday.)
- Obtuse Triangular Billiards I: Near the (2,3,6) Triangle Journal of Experimental Mathematics (2005/6) to appear
• Real Hyperbolic on the Outside, Complex Hyperbolic on the Inside
  *Inventiones Mathematicae* 151.2 (2003) 221-295

• Complex Hyperbolic Triangle Groups
  *Proceedings of the International Congress of Mathematicians*

• Lucy and Lily: a Game of Geometry and Number Theory
  *American Math Monthly*
  (Jan 2002) Vol 109.1, pp 13-20

• Circle Quotients and String Art
  *Topology* (2001) Vol 41.3 pp. 495-523

• The Pentagram Map is Recurrent
  *Journal of Experimental Mathematics*
  (2001) Vol 10.4 pp. 519-528

• Degenerating the Complex Hyperbolic Ideal Triangle Groups
  *Acta Mathematica* 186

• Ideal Triangle Groups, Dented Tori, and Numerical Analysis
  *Annals of Mathematics*

• Desargues Theorem, Dynamics and Hyperplane Arrangements
  *Geometriae Dedicata*

• Symmetric Patterns of Geodesics and Automorphisms of Surface Groups
  *Inventiones Mathematicae*
  (1997) Vol 128 pp. 177-199

• On the Integral Equation of a Third Order O.D.E.
  *Journal of Differential Equations*

• Quasi-Isometric Rigidity and Diophantine Approximation
  *Acta Mathematica*
  (1996) Vol 177 pp. 75-112
• The Large Scale Geometry of Hilbert Modular Groups
  (with Benson Farb) *Journal of Differential Geometry*

• The Quasi-Isometry Classification of Rank One Lattices
  *I.H.E.S. Publications Mathematiques*

• The Correlation of Length Spectra on two Hyperbolic Surfaces
  (with Richard Sharp) *Communications in Mathematical Physics*

• Pappus’s Theorem and the Modular Group
  *I.H.E.S. Publications Mathematiques*

• A Projectively Natural Flow for Circle Diffeomorphisms
  *Inventiones mathematicae*

• The Pentagram Map
  *Journal of Experimental Mathematics*

• The Limit Sets of Some Infinitely Generated Schottky Groups
  *Transactions of the American Math Society*
